STAT

PRINTING AND PHOTOGRAPHY DIVISION  
WEEKLY REPORT FOR PERIOD ENDING  
13 December - 18 December 1984

STAT

I. Items or Events of Major Interest that have Occurred  
During the Preceding Week

A. Electronic Text Editing and Composition System  
(ETECS) Activities: Installation of the Autologic  
"Bit Blaster" laser printers has been completed in  
the ETECS facility. Installation will soon be  
complete in the Printing and Photography Division  
(P&PD) Main Plant composing area. The installed  
laser printers are awaiting two remote interfaces  
[redacted] before they will be in full  
production.

STAT

B. Wang-VM Wang Capability: System Staff and Prepress  
personnel with assistance from ODP Consulting  
Services Staff demonstrated the Wang to Wang  
communication capability. This capability could be  
used in lieu of customers having to submit Wang disc  
to ETECS for transmission to the [redacted] composition  
system
